Kim Su Hwan

papaking67@kaist.ac.kr | https://pepeking67.github.io/ | GitHub

Education

KAIST 2022 – Present

Undergraduate, Mathematical Sciences and Computer Science *Daejeon, South Korea*

- GPA: 3.69 / 4.30

Research Interests

Reinforcement Learning, Robot Learning, Vision-Language-Action Models

Experience

KAIST BDI Lab Summer 2024

Undergraduate Individual Research *KAIST*

- Reviewed and presented graph machine learning papers, focusing on knowledge graphs, including BiVE.

KAIST Madcamp Winter 2023

Collaborative Software Development Program *KAIST*

- Collaborated on GitHub to develop mobile apps and web applications through weekly team projects.

Technical Skills

Languages: Python

Libraries: PyTorch, NumPy, Pandas, Matplotlib

Developer Tools: Git, VS Code
